Sensa by Cosentino Treatment

The long-lasting, chemically-integrating technology allows the material to breathe. This technology enhances its powerful properties.

The process alters the surface tension of the stone causing the material itself to prevent liquids such as water, coffee or oil from penetrating.

TRADITIONAL

Textures

Unique patterns for irreplicable surfaces.

The colors and textures of Sensa by Cosentino have the patient and whimsical design of nature. Each of the seven available shades has a texture that produces different effects and sensations: suede, polished or caresse.
