Silestone

The new mineral hybriq surface

Silestone is a low-silica mineral surface composed of premium minerals and recycled materials, powered by the revolutionary Hybriq+® technology.

Silestone advantages

Silestone is extremely durable in kitchens, bathrooms and other spaces exposed to constant activity and use. In addition, it offers an unlimited range of colors and textures.

Silestone has many advantages, including minimal maintenance, high resistance to stains and scratches, and a low fluid absorption rate. This resistance to fluids and its minimal joints make Silestone the ideal solution for places where liquids are present. Silestone is resistant and allows for prolonged enjoyment to last a lifetime.

The properties of Silestone are the result of constant years of innovation that guarantee maximum hygiene and safety.

Acid and Scratch Resistant

Silestone has a high level of scratch and impact resistance, as well as resistance to external aggressors such as acids common in daily kitchen use.

Impact Resistant

The high impact resistance of Silestone allows the handling of hard objects (pots, pans, trays, etc.) with total peace of mind.

Stain Resistance

Silestone is a non-porous surface that is highly resistant to stains from coffee, wine, lemon juice, oil, vinegar, makeup and many other everyday products.

25 year warranty

Silestone Formats

Infinite possibilities for indoor applications.

Silestone is available in slabs up to 327 x 159 cm and in 30 x 30 cm, 40 x 40 cm, 60 x 60 cm, 60 x 30 cm and 60 x 40 cm tiles. They are marketed in thicknesses of 12, 20 and 30 mm. In addition, different pieces can be combined to simulate thicker edges.

Large format

Jumbo Slab → 327 x 159 cm
Standard Slab → 306 x 140 cm

Floor formats

→ 30 x 30 cm
→ 40 x 40 cm
→ 60 x 60 cm
→ 60 x 30 cm
→ 60 x 40 cm
→ Custom Size

Thicknesses

→ 12 mm
→ 20 mm
→ 30 mm
→ Custom thicknesses adding different pieces

Jumbo Slabs

Cosentino offers Silestone slabs in Jumbo format (327 x 159 cms max.).This format allows for the creation of large surfaces with minimal jointing, design versatility, and better hygiene. This way, the slabs' use is optimized and waste minimized.

Silestone Textures

Surface sensory perception.

In order to adapt to all styles, Silestone offers different textures for any of its applications. Polished, Suede or Volcano are three possibilities that make the imagination soar and bring to life countertops, floors or walls with the desired texture.

Polished

Extreme shine, a smooth surface to the touch and a uniform, intense and consistent color.

Suede

Extra matte finish, offers a flat, non-rugged surface, which conveys a unique experience to the touch for its beauty and fineness.

Volcano

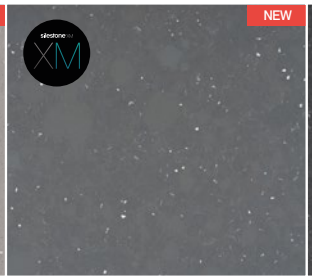

Rustic texture, rough to the touch, but soft at the same time, an attractive and pleasant to the touch surface
